Remarks

1. In response to the amendment filed on 13-July-2005, claims 1, 5, 8-10, 12-13, 15, 23-25, 27-28, 30-46, 48-53, 55-63 and 67-73 are canceled, claims 2-4, 6-7, 11, 14, 16-17 and 47 are amended per applicant's request. Therefore, claims 2-4, 6-7, 11, 14, 16-22, 26, 29, 47, 54 and 64-66 are presently pending in the application, of which, claim 17 is presented in independent format.
2. In view of the examiner's amendment, authorized by the Attorney of Record, claims 6, 7, 14, 16, 21, and 64-66 are further amended or cancelled by the examiner (details provided below.)

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. David Jakopin (Attorney of Record) on 30-August-2005 (see enclosed Interview Summary, paper No. 20050830-1.)

Claims 6, 7, 14, 16, and 21, are amended by the examiner and claims 64-66 are canceled (to avoid duplicate claims), as follows:

Art Unit: 2165

6. (Currently Amended) A method according to claim 17 further comprising ~~the~~ a step of combining compressed blocks in each of the plurality of compressed first threads to obtain digitally compressed data.

7. (Currently Amended) A method according to claim 17 wherein the step of creating the plurality of first threads includes ~~the~~ a step of associating each of the plurality of blocks of digital data with one of the plurality of the first threads such that blocks within each of the plurality of first threads share certain common compression characteristics.

14. (Currently Amended) A method according to claim 17 further including ~~the~~ a step of predicting an estimated compression time and estimated amount for each block.

16. (Currently Amended) A method according to claim 17 wherein the step of partitioning data includes ~~the~~ a step of determining the size of each of the plurality of blocks taking data type of each block into account.

21. (Currently Amended) A method according to claim 17 further comprising ~~the~~ a step of combining compressed blocks in each of the plurality of compressed second threads to obtain digitally compressed data.

64-66. (Canceled)

Allowance

4. Claims 2-4, 6-7, 11, 14, 16-22, 26, 29, 47, 54 and 64-66 are allowed over the prior art made of record.

5. The following is an examiner's statement of reasons for allowance:

The applicant's amendment filed on 13-July-2005, overcome the cited prior art with respect to the independent claims. Claim 17 has been re-written by the applicant as an independent claim, featuring the previously "objected to" allowable subject matter. All other claims depend from the sole independent claim 17.

The examiner's amendment authorized by the attorney of record on 30-August-2005, overcomes various 35 U.S.C. §112, second paragraph and duplicate claim issues with the applicant's amendment and re-routing of the claims.

The prior art of record, Johns (U.S. Patent No. 6,366,289), Wang et al (U.S. Patent No. 6,212,657), Notenboom (U.S. Patent No. 5,109,433), Simms (U.S. Patent No. 5,586,280), and Morikawa et al (U.S. Patent No. 6,043,897), do not disclose, teach, or suggest the claimed limitations of (in combination with all other features in the claim):

operating upon each of the compressed first threads to eliminate each of the compressed first threads and retain the compressed first blocks;

creating a plurality of second threads, such that each second thread includes at least one of the plurality of compressed first blocks; and

Art Unit: 2165

operating upon each of the plurality of second threads to obtain a plurality of compressed second threads, each compressed second thread including at least one compressed second block of digital data, as recited in independent claims 17.

Claims 2-4, 6-7, 11, 14, 16, 18-22, 26, 29, 47, 54 and 64-66 are allowed over the prior art made of record, because they are dependents from the allowed independent claim 17.
